Additional information

Barcode label on the inner diameter

With the barcode, each sheave liner can be retraced at Semperit, like date of production, order number, customer and article number

Marking on the outer diameter

Every sheave liner is marked with the production date at the outer diameter. Additional customer information can be added.

All specifications, numbers, calculations, test values, and data mentioned here – which are the basis for our customer consultation – are in accordance with the latest engineering standards. As the operating conditions have an influence on product application, this information can only be used as a rough guideline. It is the sole responsibility of the customer to check the application conditions of each individual case, and whether the specified quality criteria of our products are adequate for the intended purpose. Improper use, excessive loading, or exposure to impermissible media can impair the product's function. Our experts will be happy to answer any questions you might have.
